Grant guidelines

Rev Jan 2015

Application deadlines

April 1

for June action

October 1

for December action

The Summit Area Public Foundation welcomes grant applications from organizations serving the people of the Summit Area. To be eligible for a grant, an organization must

- be tax exempt, and
- either based in the Summit Area and provide a major portion of its services to Area residents, or,
- if based outside the Summit Area, a significant portion of the project for which a grant is requested must be related to service to Area residents.

The Foundation is interested in the broadest possible coverage of the community's needs, and all proposals that show promise of making a significant contribution to the welfare of the Area are given careful consideration.

The funds available for distribution are limited; therefore, the general policy of the Foundation is:

- To assist organizations with grants for new projects or initiatives, seed money to encourage matching gifts, and other civic improvements or charitable uses.
- Not to make grants for normal annual operating budgets, capital campaigns, endowments, to individuals or religious programs.
- Not to fund any single organization for more than three consecutive years.
- Not to fund private or parochial schools from its unrestricted funds.

The Summit Area Public Foundation has recently made grants in the areas of education, people with special needs, community and civic projects, health, needs of the elderly, and the arts.

All requests for grants must be in writing and submitted electronically through the Foundation website at sapfnj.org. Organizations seeking grants must follow our guidelines and use our application form.

Completed applications must be received by April 1 or October 1. The Grants Committee of the Board of Trustees reviews requests and recommends action to the full Board, which makes the final decisions at its June and December meetings.

Foundation grants are available for well-defined programs and for projects covering a specified period of time. Grantees are expected to adhere closely to the stipulated terms of the grant. At the conclusion of the grant period, grantees must submit a narrative report comparing accomplishments with objectives, along with a detailed accounting of all disbursements. Any unexpended funds must be returned to the Foundation.

All grantees are required to provide publicity of the grant. Text must be submitted to and approved by the Foundation before publication.

Reducing the size of PDF files for email transmission

Some email services limit the size of files that may be attached to emails. Even without limits, large attachments can severely slow the transmission of emails.

To reduce the size of PDF files, try these methods using Adobe Acrobat:

- For a file you have scanned, under **Tools** select the **Document Processing** tab and then click **Optimize Scanned PDF**
- When you save a PDF, select **File | Save As Other... | Reduced Size PDF...**
- In Acrobat, click **F1** (Help) to get the Adobe website. In the Search box, enter **reduce file size**.

When scanning attachments, be sure your scanner saves the results as PDF files, not JPG files. JPG files are many, many times larger than PDF files.
